Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: upon reconsideration in view of applicant's remarks filed September 15, 2005, the previously set forth rejection under 35 USC 112, 2nd paragraph has been overcome. Applicant relies upon the "wherein" clause to set forth the structure and structural relationships between the parts of the closing lid congruent with the disclosure of the specification. Additionally, none of the references separately or combined teaches a closing lid as set forth in the claims. The closest reference is the German patent to Juergen which fails to teach fastening lugs as in claim 1, a U-shaped cross section of the centering ring as in claim 12, and the centering ring resting "by means of its interior circumferential surface flatly against the fastening section".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robin A. Hylton whose telephone number is 571/272-4540. The examiner can normally be reached on Monday-Friday 9:00 am - 4:00 pm.
